

OX AC

Specifications

Min. Working Pressure	1 bar
Max. Working Pressure	20 bar
N2 Flow Out	600 l/min @ 7 Bar
LxWxH	65x76x181 mm
Weight	0,6 kg
Duty Cycle	S1 - 100%

Description

The filters have incorporated several unique design features to minimise differential pressure and provide a filter and element combination where the differential pressure starts low and stays low to maximise energy savings and provide the lowest lifetime costs without compromising air quality.

Features

- For the removal of bulk liquid, water and oil aerosols, atmospheric dirt and solid particles, rust, oil vapour, and micro-organisms
- Coalescing filter performance tested to the stringent requirements of ISO12500-1, ISO8573-2 and ISO8573-4
- Dry particulate filter performance tested in accordance with the requirements of ISO8573-4
